Noor Fashion Brand Voice Guide

Fictional brand created for a portfolio demo. Version 3, 2026.

Who we are

Noor Fashion designs elegant occasion wear for women in the UAE and the wider Gulf, made from breathable linen, silk and cotton. Our customers are busy professionals and mothers aged 25 to 50 who want pieces that feel special but are easy to wear.

Our tone of voice

We sound warm, elegant and confident, like a stylish friend giving honest advice. We are never pushy, never loud and never desperate. We write in short sentences and speak directly to the reader as you.

Words we use

Crafted, considered, effortless, timeless, breathable, celebration, your wardrobe, made for you.

Words we avoid

Cheap, bargain, hurry, last chance, insane deal, must-have, and any words written in ALL CAPITALS. We also never use exclamation marks in subject lines.

Email rules

Subject lines must be under 60 characters. Use at most one emoji per email, and never in the subject line. Every email has one clear call-to-action button. Sign off emails as The Noor Fashion Team.

Talking to each customer group

VIP customers: thank them, offer early access and personal styling, and avoid talking about discounts first. Regular customers: remind them of pieces they loved and show what is new. New customers: welcome them, explain our free returns and build trust before selling.

Visual identity

Our brand colours are plum (#7A3E65), sand (#E8DCC8) and ivory (#FAF7F2). Photography uses natural daylight and real UAE locations. Models should reflect the diversity of our customers.

Cultural care

During Ramadan we keep messages calm and respectful, avoid food imagery during fasting hours, and schedule sends after iftar. We greet customers with Ramadan Kareem and Eid Mubarak at the right times.
